01 PROFILE

Hi, I am Med, 21 years old, Born and actually living in Tunisia,
I'm a past computer science student

with over 5 years of experience in the IT field.

You can call me a Front-end web developer, ReactJs developer & MERN developer, but beside that I learned all the fundamentals of programming such as Algorithms and Data structures.

I don't like to define myself by the work I have done. I define myself
by the work i want to do. Skills can be taught and i am always open to learn
new things, especially continue challenging myself.

02 EMPLOYMENT HISTORY

Mar 2021 — Present

Self-Employed

As a self-employed web developer I had a chance to work with the most talented people across the world.

My clients were mostly start-ups or small companies, where i was being challenged the most.
